

TYPE SL

This non-UL, extra-flexible product, available in the smaller diameters, is designed for tight-spot installation and where continuous flexing is required of a steel wound hose.

Construction:

- Hot Dipped Galvanized Steel
- Helically wound, formed strip

Application:

- Offers good mechanical protection to wiring in a variety of OEM applications.
- Mates with a variety of setscrew and clamp-type connectors.

Markets:

Security

All Products Proudly Made in the USA
